

EOLA HILLS

WINE CELLARS

30 years of great vines
and great Oregon wines

OUR COMPANY

Established in 1986, today Eola Hills Wine Cellars is one of Oregon's largest, locally owned wineries. We farm more than 300+ acres of vineyards in the Eola Hills of Oregon's mid-Willamette Valley, where the maritime climate and rich soils create perfect conditions for growing the finicky Pinot noir grape and cool-climate varietals such as Pinot Gris and Chardonnay.

OUR LEGACY

At Eola Hills Wine Cellars, we take great pride in how we develop and tend our vineyards: they are our legacy for future generations. We take our commitment so seriously that we chose the name, Legacy Estate, for our newest and most beautiful vineyard property, near Salem, Oregon.

OUR MISSION

As long-term farmers, we're committed to sustainable wine grape growing. We advocate low-input viticulture, considering the unique characteristics of each site when making farming decisions. Our vineyards are dry farmed, lessening the potential for runoff and helping to protect groundwater sources. We select biological treatments for pests and disease whenever possible; we plant flowers and native plants to encourage beneficial insects; and for each vine we plant, we plant a native tree.
